Git, Vim, Xcode 5 | Scrum

WORK EXPERIENCE

Workday, Inc.

June 2014 - September 2014

Associate Software Engineering Intern - iOS
Pleasanton, CA

- Integrated an open source library (<https://github.com/tombenner/nui>) called NUI into Workday (iPhone & iPad)
- Extended NUI to position iOS views using CSS, allowing developers to easily reposition iOS views
- Recreated calendar date picker widget to conform to iOS7 style guidelines using NUI

Waypoint Real Estate

June 2011 - August 2011

Software Engineering Intern
Oakland, CA

- Decreased time for Leasing Agents to find clients a desirable home by 50%
- Developed a custom user interface that leveraged Google Maps API to locate homes based on client city preference

PERSONAL PROJECTS

Mngr

Spring 2014

<http://mngr.herokuapp.com>

node.js, Parse, JavaScript, HTML5 - CSS - jQuery

- Led 10 person UCSD software engineering project group for CSE 110
- Coordinated design of software and chose technology stack to meet time constraints
- Created a web app for restaurant managers to organize employee schedules and for employees to check schedules

Couplr

June 2013 - Present

www.couplr.co

node.js - Express - HTML5 - CSS - jQuery

- Facebook app that allows users to anonymously vote on potential relationships between friends
- Potential matches are derived from a backend algorithm
- 170+ Unique Visitors, 33 Active Users, and 2100+ votes within two weeks of launch
- Design philosophy was centered around a clean and modern interface with playful accents

Personal Website

June 2013 - Present

www.jeremybassi.com

HTML5 - CSS - jQuery

- Designed with the idea that simplicity should define user experience
- Created an uncluttered newspaper-like website feel with intuitive page navigation
